Why are only dying and retiring Republicans speaking out on this? What more does it take? The 'GOP' isn't a political party anymore. It's a racist (we have data), fascist (we have data), sycophantic (Doug Ericksen, Paul Ryan, 'Team Mitch') capitalist crony machine...ok, that could still be a political party. But who owns this? Other than Doug, who claims this? In Whatcom County, how do local, elected Republicans deal with this treason?
